

YX930D Electric Suction Apparatus

Performance characteristics:

- Large flow oil-free lubricating vacuum pump, high pumping rate, no oil mist pollution, pump body no need daily maintenance.
- Large diameter liquid storage bottle, with a sealing ring stopper, easy to open and close the stopper, easy to remove the dirty liquid in the bottle.
- 3 Overflow protection device can prevent liquid from entering the pipe and pump.
- 4 Use transparent non-toxic PVC suction hose to observe the liquid in the tube.
- **5** Equipped with air filter can prevent negative pressure pump pollution.
- 6 The machine works smoothly, low noise and long service life.
- 7 Manual switch and foot switch are connected in parallel, optional.

YX930D Electric Suction Apparatus The main technical parameters

- Limit negative pressure value: ≥ 0.09mpa (680mmHg)
- Negative pressure adjustment range: 0.02~0.09MPa(150~680mmHg)
- **3** Pumping rate: ≥40L/min
- 4 Liquid storage bottle: 2500ml×2 (glass)
- **5** The noise: 60 db (A) or less
- 6 Power supply: AC220V 50Hz
- 7 Input power: 250VA
- (8) Outer packing size: 46.5cm×42.5cm×92cm
- 9 Gross/net weight: 22.5/20kg

المميزات

- كاتم للصوت
- 2 لا يحتاج الى صيانة
- 3 مصمم للعمل لفترات طويله
 - مقيم من قبل وزارة الصحة العراقية ومورد لعشرات المتشفيات الحكومية
